school varies men medianpriset medianpriset elementary school students are around \$8,600. That makes Montessori schools more expensive than the typical Catholic school, but roughly on par with other religious schools. Parents can also save money by starting their children in a public elementary school, then transferring them to a private high school. According to the Money article, if their hypothetical private-schooling family did this with two children, they would end up saving a total of \$71,000 compared to family in the expensive school district. Private School Scholarships Families who have trouble providing private school tuition can sometimes bring it within their financial reach through scholarships and other forms of financial support. Some schools have their own financial support programs, and others participate in national, regional or state scholarship programs. Funding sources are: The Children's Scholarship Fund. Originally started as the Washington Scholarship Fund, the Children's Scholarship Fund (CSF) now provides partial tuition scholarships for low-income families across the country. Scholarships cover up to 75% of tuition costs, with the average amount coming to \$1,700 per child. They can be used for any type of school - religious, secular, or even home schooling. To qualify for scholarships, families must meet to have a child in elementary school and meet income guidelines for the National School Lunch Program. During the year 2015-2016, the Foundation awarded scholarships to more than 24,000 students. To apply for a scholarship, parents must contact one of CSF's partner programs in 16 states; the duration of the process depends on the specific program. The young scholar program. Run by the Jack Kent Cooke Foundation, the Young Scholars Program provides scholarships for middle and high school students with top-notch grades. About 60 students receive scholarships each year, which they can use for boarding school, day school or narrow-minded (religious) school. In addition to financial support, young students receive academic advice, access to specific enrichment programs and other resources. Families with incomes up to \$95,000 can apply, but most young researchers come from families with incomes under \$60,000. The application period runs from January to April, and students will know in September if they have qualified for support. A better chance. This program is aimed at students of color in grades 4-9 who get good overall grades and are active in leisure activities. The program doesn't actually provide scholarship funding, but it refers qualified students to more than 300 middle and high schools nationwide — both religious and secular — and helps them apply for financial support from those schools. A Better Chance says most students who apply through their program receive financial support, but it doesn't provide a certain percentage. The application process starts in February for the academic year beginning 18 months later. There are many other scholarships and coupon programs that work in particular states or regions of the country. Parents can find out about programs in their area through the Private Schools website. Providing a home near the best public schools in general, neighborhoods with large public schools are more expensive than other neighborhoods in the same public area. However, there are some notable exceptions to this rule. Neighborhood Scout has compiled a list of neighborhoods in the nation's 20 largest metropolitan areas that combine good schools with affordable housing prices. For each neighborhood, the site lists the median home price and school district rating on a 100-point scale, based on factors such as class size and test scores for the state. For the 10 largest metropolitan areas in the United States, the best neighborhoods are: Metro Area Neighborhood Median House Value Public School Rating New York, NY Queens, NY \$234,924 92 Los Angeles, CA Los Alamitos, CA \$411,225 87 Chicago, IL Elmhurst, IL \$260,105 86 Dallas, TX Richardson, TX \$259,597 90 Philadelphia, PA Narberth, PA \$274,086 96 Houston, TX Friendswood, TX \$218,832 94 Washington, DC Laurel, MD \$279,307 88 Miami, FL Hallandale Beach, FL \$184,819 52 Atlanta, GA Fayetteville, GA \$202,980 65 Boston, MA Brookline, MA \$390,447 98 If the area you live in — or want to live in — is not part of a major metropolitan area, Neighborhood Scout can still help you find an affordable area with good schools. You can enter your state and region in your site's advanced search engine, and then choose your school quality, price, and other features that are important to you, such as crime rate or walkability. But to use this feature, you need to subscribe to the site, which costs \$40 per month, \$90 per quarter, or \$192 per year. Another way to afford a home in a top-rated school district is to consciously choose to live in a smaller house. In Tredyffrin Township, PA, for example, Zillow lists three-bedroom homes for as little as \$390,000. The mortgage payment on a house like this would come to about \$1,912 per month — a saving of \$698 per month, or \$8,376 per year, compared to the median house price. Final words When choosing a place to live, the school district is not the only factor to consider. For starters, you want to find a home that's close to your workplace, so you don't have to face a long commute every day — maybe even one that's close enough for you to walk or bike to work. Ideally, you also want to be close friends and family. And finally, you want to live in a neighborhood that's convenient for you, with access to all the amenities you care about — from local businesses to a good public library. So if the neighborhood that you like best isn't the one with the best schools, don't give up on it. Instead, crunch a few numbers and see how much you can save by combining an affordable home with a private school. Or, on the other hand, if the place you're in love with has a large school district soaring housing prices, housing prices, for ways to find an affordable home in that neighborhood. Did you go to a public school or a private school? Which one would you choose for your children? Children?
